

BROWNS FASTENERS LTD

BS EN ISO 9001
No.RS426

Established 1953
Registered No. 521228
VAT No. 169 1997 08

Browns Fasteners has over 30 years' experience established as a long term approved partner of some of the World's best known and leading companies within the rail industry, supplying both directly to train operators and manufacturers and through a network of companies who supply consumables into the rail industry.

We continue to work closely with our clients offering a vast range of high quality products backed by our in-house rail specific inspection team. In addition to this we offer a vast range of services such as dedicated site deliveries, Kan-Ban/Vendor Managed Inventory Systems and the supply of fastener kits to help end users on overhaul and repair work.

In addition to the standard fasteners we supply, we have the ability through established partners to produce a range of highly specialised fasteners and turned parts in standard and exotic materials to our client's drawings and specifications.

SIEMENS

Our continued dedication and commitment to supporting the rail industry has seen awarded "Top Materials Supplier" by Siemens Rail Systems in 2011, 2012 and 2014.
